Books

Animals: A Visual Encyclopedia

Authoritative yet accessible, Animals catalogs everything from aardvarks to zebras with special focus on the superlatives that appeal to children: biggest, fastest, strongest, and strangest. Stunning action photography puts our animal neighbors in context and shows them in their natural habitats, interacting with other animals and taking part in amazing migrations, feeding frenzies, and more.

Black's Veterinary Dictionary

Black's Veterinary Dictionary has been a bestseller for over seventy years. It is an essential reference tool for all with a professional or leisure interest in the care of animals.

Bumble Bees of North America: An Identification Guide

Bumble Bees of North America is the first comprehensive guide to North American bumble bees to be published in more than a century. Richly illustrated with color photographs, diagrams, range maps, and graphs of seasonal activity patterns, this guide allows amateur and professional naturalists to identify all 46 bumble bee species found north of Mexico and to understand their ecology and changing geographic distributions.

Encyclopedia of Insects

Covers all aspects of insect anatomy, physiology, evolution, behavior, reproduction, ecology, and disease, as well as issues of exploitation, conservation, and management, this book sets the standard in entomology.

The Human Body Book: An Illustrated Guide to Its Structure, Function and Disorders

Revealing and detailing all aspects of the body, from the secrets of DNA to the functions of every major body system, this all-in-one encyclopedic guide is packed with accessible health and medical information that is ideal for students, health professionals, or anyone who wants to learn more about the human body.

The Visual Guides: Understanding The Human Body

The Visual Guides series answers the most important questions on topics that fascinate everyone through a series of videos and animations: weather, the human body, the Earth, the universe and plants. It provides images of natural phenomena and explanations of fundamental concepts, and features the very latest discoveries in these areas.

Use the title contains box to do a title keyword search

The screenshot shows the Credo Reference website interface. At the top, there is a search bar with the text "Search Credo" and a "Your Logo Here" placeholder. To the right of the search bar, there is a "Permalink" button (represented by a chain link icon) and a "Details" button. A pop-up window titled "Permalink" is displayed in the center, showing the URL: <https://search.credoreference.com/content/browse/book?searchPhrase=human+body>. The main content area shows search results for "human body". On the left, there is a "Narrow Your Book Results" section with a "SUBJECTS" filter. The "SUBJECTS" list includes: All Subjects, Agriculture, Aquaculture & Food Sciences, Animals & Veterinary Medicine, Arts & Leisure, Biography, Business, Finance & Economics, Education, Food, Drink & Nutrition, General Reference, Geography, Health & Medicine, History, Jobs & Careers, Language & Literature, Leadership, Mathematics & Statistics, Mythology & Folklore, Philosophy, and Psychology. The "Books" section on the right lists two books: "The Human Body Book: An Illustrated Guide to Its Structure, Function and Disorders" and "The Visual Guides: Understanding The Human Body".

After you have added either or subject or title filter, the permalink will pick up that filter – allowing you to link to or email yourself a static URL that will always bring you back to this page
